Dental Facts & Myths: Interesting and Crazy Things You May Not Know

Brush your teeth **twice a day for two minutes** using an ADA approved fluoridated toothpaste to prevent tooth decay. *The average person spends about 48 seconds per day brushing their teeth, but dentists recommend at least 2 or 3 minutes.

*The cotton candy making machine that made cotton candy possible was co-invented by a dentist. Before it was cotton candy, the fluffy confection was called "fairy floss."

* **Tooth enamel** is the hardest substance in the human body; however, we do NOT recommend that you use your pearly whites to open cans!

* 50% of people surveyed say that a person's **smile** is the first physical trait they notice.

Floss your teeth once a day to clean the areas in between your teeth that your toothbrush can't reach. *73% of Americans would rather go grocery shopping than floss.

Eat This, Not That! Game

Cut out pictures of food from magazines. Find healthy foods, such as fruits, vegetables and milk. Then look for unhealthy foods, such as candy and soda. Put all these pictures into a large pile. Take two small brown bags and draw a "happy tooth" on one bag and a "sad tooth" on the other. Together, sort out the pictures and place them in the correct bag. Talk about how to improve your diet for healthy teeth.

Importance of School Attendance!

If your child will be absent due to an appointment, it is recommended that you attain an excuse from your provider for the date and time of the visit and return the excuse to the school office. This will ensure that the absence is noted as an excused absence or tardy. Appointment cards will NOT be accepted as an excuse.

Call to report your child's daily absence by calling the school's attendance line at 662-7990.

Report your child's absence online here: <http://forestglenhssd.weebly.com/electronic-absence-form.html>

Monitor your child's tardies and absences through the district website: <http://powerschool.hssd.k12.wi.us/public/>
